Name MeetShareDance Association

Short description

MeetShareDance Association was created in 2012 in Madrid, Spain to support dance, creativity and art for people with and without disabilities and to create an international network for professionals and amateurs. Once a year we organize international dance workshop festival (every year in a different country).

We strive to:

- promote dance, inclusion and disability in Spain and worldwide and generate a public space that propels cultural exchange and artistic development

- design and develop educational programs and vocational training /artistic and technical for artists with and without disabilities
- strengthen the existence of integrated artistic spaces of social participation with open dance events, open stages, street performances, etc.

- promote the development of professionals and showing the diversity of dancer's bodies
